

# PSIcontrol – Decentralized Infeeds (SKUDZE)

The training is designed for network control system staff and experienced users. It covers the basics of the decentralized infeed functions.

After completing the training, the participants will be able to manage the network with the DCI functionalities.

## Contents:

- Introduction to the new user interface and functions
- Basic understanding of the new representation logic and correlations
- Infeed management via the new user interface
- Topological localization of all infeeds in the electrical network
- Observability of the infeed
- Individual plants and transformer control
- Network group control
- Controls and power settings
- DCI reports and log representation

Duration:	0.5 days
Training location:	Aschaffenburg, Boschweg 6 or online
Language:	English
Target group:	Operators, system administrators, trainers, testers
Prerequisite:	PSIcontrol – SCADA (SKUOPR)
Training materials:	Presentation slides
Min. number of participants:	4
Registration deadline:	6 weeks before start of the training
